

January 16, 2018

Dear Prospective Sponsor,

The National Society of Black Engineers, Junior (NSBE Jr.) chapter at Ypsilanti Community High School requests your company's support as they prepare to attend the National Society for Black Engineers Annual Conference in Pittsburgh, PA. At the national conference the Ypsilanti Community High School team will be competing in the TEN80 Race Car Challenge against other NSBE Jr. chapters from around the country. The Ten80 Race Car Challenge is a competition in which middle school and high school students collaborate and compete in ways that mirror the work done by business and marketing executives, engineers, and professional motorsports teams. It's through this competition that students can apply the math, science, and technology skills that they learn in the classroom.

NSBE's core mission is to increase the number of Black engineers, by graduating 10,000 African American bachelor's degree candidates per year in engineering, by 2025. Hence the main objective of the NSBE Jr. program is to increase number of African American students interested in pursuing undergraduate degrees in engineering and science fields.

This school year, the NSBE Jr. Chapter has

- Partnered with NSBE chapter at the University of Michigan – Ann Arbor.
- Partnered with Toyota
- Partnered with the Washtenaw County Commission
- Registered to participate in the local Ten80 Race Car Invitational on February 1, 2018 at Ypsilanti Middle School.

Please consider becoming a sponsor to support the efforts of the NSBE Jr. team at Ypsilanti Community High School to raise \$15,000. Your contribution will be used to purchase additional materials for the RC Car, as well as provide funds for our team to travel to Pittsburgh for the competition. Please select one of the various sponsorship levels listed in the attached sponsorship form.

To confirm your sponsorship, please contact Dr. Jennifer Banks at jbanks@washtenawisd.org. Thank you in advance for your support. We look forward to partnering with you.

Sincerely,

Dr. Scott Menzel

Dr. Benjamin Edmondson
