Random Moment Time Studies – A Guideline for Direct Service Providers

When chosen, you will receive a notification that you have been randomly selected to complete a web-based time study moment for the Michigan School Based Services Program. Your notification will come via email from miaop@pcgus.com. The time study gathers information on the activities that school staff are performing for special education students and classifies these activities based on whether they are educational or related to the delivery of designated health services that could be federally matched by Medicaid.

As a significant amount of the SBS Medicaid claim is based on the results of the time studies, it is very important that the person who reviews and assigns a code to your answers understands your activity. Please follow these important guidelines:

Use detail and be very specific in describing activities that are health related in nature.

Question 1- Who was with you?

Vague Response	Detailed Response
A student	A severely multiply impaired student
A parent	A parent of an autistic student
A teacher	The SXI classroom teacher
A principal and staff	The principal of our center program for special education students, along with the OT and PT and Social Worker

Question 2 – What were you doing?

Vague Response	Detailed Response
Lesson Plans	Developing a health-related plan of care
Compiling Data	Compiling medical evaluations for assessments for IEP
Paperwork	Medical documentation, e.g. documenting student’s progress on IEP goals

Question 3- Why were you doing this activity

Vague Response	Detailed Response
Scheduled therapy	To promote maintenance and extension of the student’s severely limited range of motion
Per IEP goals	The student is non-verbal and needs support for effective communication during her activities of daily living due to multiple impairments
Student needed assistance	Student was having difficulty breathing, probably due to seasonal allergies. Student needs help with actuation due to limited hand strength

Question 4- Does the student have an IEP in place for the services you are performing?

This question is very important since without an indication of an IEP/IFSP in place, the service will not be counted for Medicaid purposes.
