

What is Teaming?

Early intervention uses a team approach, which means that your child has a team of people available to support you and your child's development during everyday activities in your home and community. This team includes you (the caregiver), the Primary Service Provider (PSP), and other early intervention team members. We are all equal partners and will work closely together to support you as you help your child meet the outcomes that are important to your family.

Your child's team meets on a regular basis through formal and informal discussions to problem-solve and plan together to provide strategies based on the unique needs of your child and family.

Your child's team may include:

- Early Childhood Special Education Teacher
- Occupational Therapist
- Physical Therapist
- School Social Worker
- Speech-language Pathologist
- Teacher Consultant of the Deaf and Hard of Hearing
- Teacher Consultant of the Visually Impaired
- Psychologist
