

How to Reset your Password Offsite

Normally you must be onsite to reset your WISD AD password. Now through the ticketing system we have added an option to allow you to reset it yourself, however it requires some steps to set up.

Navigate to “CSR Helpdesk” from the staff page on the website. Make sure you log out if it takes you directly to the ticket system.

Once at the Login page click “Password Management”, Log in using your username (jsmith) and password

You will see a box on the next page, select "Click here"

Welcome! This portal offers you the power of password self-service!

- Password Reset: Securely reset your machine password without help desk assistance.
- Account Unlock: Unlock your account when you get locked out without help desk assistance.
- Profile Update: Update your photo, mobile number, address, and other details on your own.

Enroll now to enjoy these benefits! [Click here](#)

You will need to fill in all the fields to create 4 security questions for your password resets. Once completed you will get a green message saying you successfully enrolled.

Please enroll for the forced verification methods enabled for your account.
